

HANDOUTS FOR PARENTS

AGE 13-16 YRS

PHISHING/SPAM EMAIL

Children spend their maximum time online playing games on a tablet, cellphone or online. It is important for them to be able to protect themselves and ensure they are safe.

PHISHING/SPAM EMAIL

- Ensure your children know how to monitor or block unwanted material
- Make them aware about phishing emails and how they are designed to steal your valuable personal data
- Install Internet content filters on your teen's computer to keep unwanted material away
- Warn them of emails that ask for personal information or the ones that direct them to an external website as it could be a hoax website
- Warn them against responding to a phishing email and always delete it from your system

“PHISHING ALSO KNOWN AS ‘BRAND SPOOFING’ IS AN ELABORATE FORM OF DATA THEFT”
